Beta testing: Mahir Wu.

Distance 22 is a numerical high-range IQ test consisting of 22 items. Each item is worth 1 point, and in certain cases, 0.5 points may be awarded. No extraneous knowledge is required; solving the test items only necessitates the ability to recognize numerical patterns. Please select the most concise and rigorous solution as your answer. If you believe that a particular item does not have a unique answer, you may submit two answers, but both must be accompanied by a detailed logical explanation. If an item contains multiple question marks, you should fill in as many digits as there are question marks. This test permits two submissions. There is no time limit. Upon completion of the test, you are required to send your answers along with your basic information and identification to my email address: 436018663@qq.com. Basic information: name, gender, age, and estimated score. Identification: ID card, driver's license, student ID, household register, etc. are all acceptable, provided that they display your name, gender, and age. Previous high-range IQ test scores: test name, author, raw score, and theoretical IQ. There is no scoring fee. WITHOUT PRIOR AUTHORIZATION, NO ORGANIZATION OR INDIVIDUAL MAY ARBITRARILY DISCUSS, DISCLOSE, DISSEMINATE, PUBLISH, OR OTHERWISE SHARE THE TEST ITEMS, SOLUTION APPROACHES, ANSWERS, OR ANY RELATED INFORMATION.

Note: Due to academic commitments, there may be an extended period during which I am unable to respond. I appreciate your understanding. Nevertheless, you are welcome to take the exam. In addition, in the context of AI development, this test report is no longer sufficient to prove your ability to others and can only be used for self-verification.

The author's scores on all numerical high-range IQ tests:

- Tang - by Chen Huanyun - 19/28 - I.Q. 158 - SD=15 - 1st (previously: 20.5/30 - I.Q. 155.5 SD=15) - age 13

- Numeric Inspiration Test - by Mahir Wu - 23.5/30 - I.Q. 165 - SD=15 - 1st - age 13

Distance 22 是一套数字高量程测试，由 22 道题组成。每题 1 分，在特定情况下可能赋予 0.5 分。不需要多余的知识，解决测试中的题目只需要对数字的模式识别能力。请选择一个最简洁严谨的解作为您的答案。如果您认为某道题答案不唯一，您可以提交两个答案，但两个答案都需要附上详细的逻辑解释。如果一个项有多个问号，应该在那里填入与问号数量相等的数字。本测试允许 2 次提交。没有时间限制。完成测试后，您需要将您的答案连同基本信息和身份证明一起发送到我的邮箱 436018663@qq.com。基本信息：姓名、性别、年龄、预估分数。身份证明：身份证、驾照、学生证、户口簿等均可，需要露出姓名，性别，年龄。以往所有高量程智商测试成绩：测试名、作者、原始得分、理论智商。没有评分费用。任何组织或个人在未经允许或授权情况下不得擅自讨论、公开、传播、出版有关该测试的题目、思路、答案以及一切相关信息。

备注：由于学业原因，可能会有很长一段时间无法回复，见谅。但是仍然欢迎提交。另外，在人工智能发展的背景下，该测试报告已不足以向他人证明您的能力，仅可用于自我证明。

作者所有数字高量程测试成绩

Tang - by 陈焕匀 - 19/28 - I.Q.158 - SD=15 - 1st（原：20.5/30 - I.Q.155.5 - SD=15）- 13 岁

Numeric Inspiration Test - by 伍美恒 - 23.5/30 - I.Q.165 - SD=15 - 1st - 13 岁

“遥远的距离使星星隐去了复杂的个体结构……这是思想者的乐园，逻辑的乐园……”
